DEVELOPMENT SERVICES ASSESSMENT AND COMPLIANCE

These fees apply irrespective of whether Council's role is assessment manager, referral agency or similar role administering/assessing/deciding/providing advice on the application/matter.

These fees apply to development applications, requests for Council compliance assessment and matters under the *Planning Act 2016*, *South Bank Corporation Act 1989*, *Economic Development Act 2012*, or equivalent past or replacement legislation.

A separate fee is to be calculated for each assessable component of an application.

For staged development, each development stage is treated as a separate assessable component for fee purposes.

Applications involving extensions to existing approved development will be charged for the new development component only.

Applications involving more than one development description (e.g. mixed-use development for multiple dwelling and shop) will be charged the sum of the fees for each assessable component.

Applications involving Material Change of Use and building work components (where the building work is explicitly in relation to the Material Change of Use) will only be charged an assessment fee for the Material Change of Use component.

An administration fee may apply for amendments to lodgement documentation (including fee quotes) or incomplete lodgement by an applicant.

Council's RiskSMART process can streamline the way certain types of straightforward development applications are assessed. For a development application to be accepted into RiskSMART it must meet the required eligible development types. For more information about RiskSMART eligibility visit brisbane.qld.gov.au

Where an application under the *Environmental Protection Act 1994* involves an Environmentally Relevant Activity (ERA), additional assessment fees will apply – refer to the "Environment Protection – Environmentally Relevant Activity" section under LICENSING AND PERMITS.

An applicant may request a fee refund after withdrawing a development application (Chapter 3, *Planning Act 2016*). All fee refund requests are to be made in writing to Council and a decision for a refund will be made by Council on a case-by-case basis. A withdrawn application may receive:

- 75% refund for a development application at the application stage
- 50% refund for a development application at the information stage
- 25% refund for a development application at the public notification stage; or
- nil refund for a development application at the decision stage.

Schedule of Fees and Charges 2025-26

Description	Unit	Base Charge	GST	Final Charge
-------------	------	-------------	-----	--------------

The above percentage refunds are to be read as a guide only. Any potential refund will be assessed and determined on a case-by-case basis, which may vary from the nominal percentages listed.

A customer may request in writing to Council a fee refund after withdrawing an application or request for service which is not for a development application (Chapter 3, *Planning Act 2016*). Any fee refunds given will be assessed and determined on a case-by-case basis at the discretion of Council.

Development Services assessment and compliance fees and charges may be reduced where it is demonstrated that exceptional circumstances support a reduced fee. Any fee reductions given are determined at the discretion of Council.

A concession of 50% of the fee may be allowed in respect of Development Services assessment and compliance fees paid on behalf of organisations recorded on Council's records as qualifying for a Type 1 Religious or Charitable; or Type 2 Essential Welfare or Community Service; or Type 3 Not-for-profit Community concession. Where the proposal is primarily for commercial purposes (including retirement facility, childcare facility, shop, food and drink outlet) or subdivision, no concession will be allowed.

For referral agency response to referrals required under the *Planning Act 2016*, unless stated otherwise, the fee for a request for a referral agency response to certain referrals (published on Council's website) is the same as the fee applied where Council is the assessment manager for development.

Development Services assessment fees and charges – points-based fee calculation system:

- Development Services have applied a fee calculation methodology utilising a points system which is applied to most of Development Services' fees. The point system allocates a number of points to a fee for service, for the purpose of setting a dollar value.
- The dollar value of a point will be defined by this Schedule of Fees and Charges, with each Development Services fee for service also being defined in this Schedule of Fees and Charges as a dollar value.
- Development Services' regular annual fees and charges brochure will reflect the points-based fee calculation system.

The dollar value of a point for the 2025-26 financial year is \$143.00

Council may determine an appropriate fee for an application, request, or service not otherwise specified in the fee schedule.

Operational Work and Council Compliance Assessment Fees (including Compliance and Inspections where applicable)

The below fees are charged for each stage of development, regardless of the timing of the lodgement.

Note 3: Where a fee for Council compliance assessment refers to "post-assessment activities", this includes, for each plan component of the development, any work or activity involving one or more of the following:
