NOTE:

This Brisbane City Council Schedule of Fees and Charges (Schedule of Fees and Charges) represent the fees and charges presented to Council at the date of its annual budget meeting. Council may alter any of the fees and charges by resolution at any time prior to the next Budget Resolution.

The fees and charges have been set by reference to existing Goods and Services Tax (GST) legislation and in accordance with Australian Taxation Office (ATO) rulings. Council reserves the right to alter the GST status of any fee and charge in accordance with any changes to GST legislation and to ATO rulings.

Council has had various functions and responsibilities delegated to it under Queensland Government and Australian Government legislation. Whenever this legislation specifies the fees and charges that must be charged by Council for undertaking that function or responsibility, the value of any such fee or charge (if referred to in this document) will be automatically altered by Council to reflect any legislatively mandated changes from the date of such change. For other fees and charges set by Queensland Government and Australian Government legislation that are referred to in this document but not specified in amount, reference to that legislation is required to ascertain the current fee or charge.

In accordance with section 238 of the *City of Brisbane Act 2010*, Council has resolved to delegate to the Chief Executive Officer its powers to waive, refund, discount or remit any and all fees and charges set out in this Schedule of Fees and Charges and any fees and charges set by way of delegated power (as recorded in the Register of Delegations). For the avoidance of doubt, the Chief Executive Officer may only exercise this delegation in accordance with any notes contained in this Schedule of Fees and Charges and special conditions as set out in the Register of Delegations.

In accordance with section 238 of the *City of Brisbane Act 2010*, Council has resolved to delegate to the Chief Executive Officer its powers to set any fees and charges not otherwise set out in this Schedule of Fees and Charges. The Chief Executive Officer may only exercise this delegation in accordance with conditions as set out in the Register of Delegations

DEVELOPMENT SERVICES ASSESSMENT AND COMPLIANCE

These fees apply irrespective of whether Council's role is assessment manager, referral agency or similar role administering/assessing/deciding the application/matter.

These fees apply to development applications, requests for Council compliance assessment and matters under the *Planning Act 2016, South Bank Corporation Act 1989*, or equivalent past or replacement legislation.

A separate fee is to be calculated for each assessable component of an application.

For staged development, each development stage is treated as a separate assessable component for fee purposes.

Applications involving extensions to existing approved development will be charged for the new development component only.

Applications involving more than one development description (e.g. mixed use development for multiple dwelling and shop) will be charged the sum of the fees for each assessable component.

Applications involving Material Change of Use and building work components (where the building work is explicitly in relation to the Material Change of Use) will only be charged an assessment fee for the Material Change of Use component.

An administration fee will apply for amendments to lodgement documentation (including fee quotes) or incomplete lodgement by an applicant during the application stage.

Council's RiskSMART Process:

– Council's RiskSMART process can streamline the way certain types of straightforward development applications are assessed. For a development application to be accepted into RiskSMART it must meet the required eligible development types. For more information about RiskSMART eligibility visit brisbane.qld.gov.au

Where an application under the *Environmental Protection Act 1994* involves an Environmentally Relevant Activity (ERA), additional assessment fees will apply – refer to the "Environment Protection – Environmentally Relevant Activity" section under LICENSING AND PERMITS.

An applicant may request a fee refund after withdrawing a development application (Chapter 3, *Planning Act 2016*). All fee refund requests are to be made in writing to Council and a decision for a refund will be made by Council on a case-by-case basis. A withdrawn application may receive:

- 75% refund for a development application at the application stage
- 50% refund for a development application at the information stage
- 25% refund for a development application at the public notification stage; or

Development Services assessment and compliance fees and charges may be reduced where it is demonstrated that exceptional circumstances support a reduced fee. Any fee reductions given are determined at the discretion of Council.

A concession of 50% of the fee may be allowed in respect of Development Services assessment and compliance fees paid on behalf of organisations recorded on Council's records as qualifying for a Type 1 Religious or Charitable; or Type 2 Essential Welfare or Community Service; or Type 3 Not-for-profit Community concession. Where the proposal is primarily for commercial purposes, no concession will be allowed.

Referral agency response to referrals required under the *Planning Act 2016*. Unless stated otherwise, the fee for a request for a referral agency response to certain referrals (published on Council's website) is the same as the fee applied where Council is the assessment manager for development.

Development Services assessment fees and charges – points based fee calculation system:

- Development Services have applied a fee calculation methodology utilising a points system which is applied to most of Development Services' fees for service. The point system utilises the allocation of a number of points to a fee for service, in lieu of a dollar value.
- The dollar value of a point will be defined by this Schedule of Fees and Charges, with each Development Services fee for service also being defined in this Schedule of Fees and Charges as a dollar value.
- Development Services' regular annual fees and charges brochure will reflect the points based fee calculation system.

The dollar value of a point for the 2024-25 financial year is \$137.00

Council may determine an appropriate fee for an application, request, or service not otherwise specified in the fee schedule.
