

September 2025

Gipps Street and Barry Parade safety improvements

We're making changes to improve safety at the Gipps Street and Barry Parade intersection in Fortitude Valley.

What is changing?

We're changing southbound access from Gipps Street to Barry Parade to left out only by extending the median on Barry Parade and realigning the kerb on Gipps Street. The new kerb alignment will also shorten the walking distance for pedestrians crossing Gipps Street.

Works will also include upgrading the stormwater drainage, extending the garden bed within the traffic island on Gipps Street, installing LED street lighting and new signage at the intersection.

Why are we doing this?

Between 2018 and 2022, there were 10 reported crashes at the intersection that resulted in 3 hospitalisations, 5 requiring medical treatment and 2 minor injuries.

Nine of the crashes occurred when motorists attempted to turn right from Gipps Street onto Barry Parade or attempted to travel through to Alfred Street, crossing 5 lanes of traffic.

When will this work take place?

Works will be carried out at night when traffic volumes are lowest. This will ensure everyone's safety and reduce the overall time to complete the works.

Start	From early October 2025.
Finish	Late December 2025, weather and site conditions permitting.
Time/day	Night works 7pm to 5am, Sunday to Thursday.

What does this mean for me?

If you live near, or travel via Gipps Street and would like to see suggested alternative travel routes to access Fortitude Valley or to head south on Barry Parade, scan the QR code and head to our website.
