

Signalised pedestrian crossing

Project introduction

September 2026

Dedicated to a better Brisbane

We're installing a new signalised pedestrian crossing on Gympie Road, near Telegraph Road in Bald Hills, to make it safer for everyone.

Project overview

This area can be challenging for pedestrians, including people with vision impairment, due to heavy traffic, limited footpath connections, the existing refuge crossing and nearby U-turn movements.

The project will make it easier and safer for people to move between local bus stops, existing pathways and the Australian Guide Dogs facility, supporting a more accessible connection for the community.

You can see the project plan over the page.

When will this work take place?

Most works will be carried out at night when traffic volumes are lowest.

This will ensure everyone's safety and also reduce the overall time to complete the works.

Start	From Sunday 20 September 2026.
Finish	Late 2026, weather and site conditions permitting.
Time/day	Night works 7pm to 5am, Sunday to Thursday.

What will this work include?

- A new signalised pedestrian crossing near Telegraph Road.
- Improvements into the pedestrian access in and around the area.
- Supporting works including drainage, line marking, pavement and new turf.

To support these works, a temporary laydown area will be used along the Gympie Road near the work site.

What does this mean for me?

During construction, the footpath will remain open during the day. However, at night, construction workers will assist pedestrians through the work area while the new signalised crossing is being installed.

If you live in, work or travel through the area, you may notice:

- some noise from truck movements and machinery operating through the day/night
- some lighting used during the night works.

At times throughout the construction, traffic control will be on site to ensure the safety of workers and road users. During the work, please follow the signage and pedestrians will be assisted by traffic control.

We value your patience and cooperation while we complete these important works.
