

April 2025

## Hilltop Avenue and Rode Road, Chermside Local Access Network Improvements

### Start of construction

#### What works are coming up?

Council is pleased to advise works to improve safety and access on Hilltop Avenue and Rode Road in Chermside will start soon.

#### When will this work take place?

<b>Start</b>	Late April 2025
<b>Finish</b>	Late May 2025, weather and site conditions permitting
<b>Time and day</b>	7pm to 5am, Sunday to Thursday

These works are required to be undertaken at night when traffic volumes are lowest, to ensure the safety of workers and road users and to minimise disruption.

#### What does this work include?

As part of these works, we will be:

- installing a pedestrian refuge island on Rode Road east of Hilltop Avenue
- installing a pedestrian splitter island on Hilltop Avenue at Rode Road
- upgrading kerb ramps and small sections of footpath on approach to the new pedestrian refuge islands
- installing a new streetlight on the western side of Hilltop Avenue
- painting associated line marking, including yellow 'No Stopping' lines.

On-street parking will not be permitted where yellow 'No Stopping' lines are in place to ensure safe sightlines and to ensure lanes are wide enough for traffic to safely pass.

**Please see the project plan on the next page for more details.**

#### Why are we doing this?

This project is part of our Local Access Network Improvements program, which focuses on important upgrades to ensure our suburbs are safe and accessible for all road users, particularly pedestrians.

Improvements as part of this project will:

- provide safer and more accessible pedestrian connections to the Prince Charles Hospital, other health care facilities, bus stops and local businesses
- delineate traffic and reduce corner cutting to encourage slower and safer vehicle movements
- improve visibility for all road users.

#### What does this mean for me?

If you live in or are travelling through the area, you may notice:

- increased noise, dust, vibration and vehicles
- changed traffic conditions, including footpath and lane closures, and reduced speed limits
- traffic controllers and signage onsite.

On-street parking within the works area will not be available while construction is underway.

We would like to thank you for your patience while these important works are undertaken.
