Pallara District Sports Park project Works complete

Early works for the Pallara District Sports Park project are complete, with some minor finishing touches taking place the week of 22 June.

Van Dieren Road and the 3 bus stops along the road will be reopened from Saturday 20 June. School services S777 and 803 will resume their normal route via Van Dieren Road on Monday 22 June.

These works have prepared the site for the future Pallara District Sports Park, delivering key infrastructure and landscaping improvements to support the main construction works, which are expected to start from late 2026, subject to weather and approvals.

We'll provide more updates before this work begins in late 2026.

We appreciate your patience while we completed these important early works.
