Brisbane City Council has been working with the community to prepare a new neighbourhood plan for Taringa. The aim of this plan is to support and foster growth in the Taringa centre where there is strong demand for housing and business opportunities as well as access to employment, services and public transport.

You now have the opportunity to have your say about the plan before it is finalised later this year. Formal submissions must be received by 5pm on Monday 15 June 2015.

**Highlights of the draft Taringa Neighbourhood Plan**

- New development to be focused in the established Taringa Village, in close proximity to the Taringa Railway Station and high frequency bus services along Moggill Road and Morrow Street. The majority of the neighbourhood plan area will remain unchanged.

- The Taringa Core Precinct will continue to be the heart of the suburb with new development up to eight storeys providing a vibrant mix of shops, cafes and restaurants, commercial, residential and community uses.

- High density, mixed use development up to 12 storeys in the Gateway Precinct will improve the pedestrian environment and access to the railway station.

- A new public plaza will be provided in conjunction with new mixed use development up to 10 storeys in the Harrys Road East Precinct. Development in this precinct will be residential with uses such as shops and cafes on the ground level.

- Long-term improvements are proposed to the Moggill Road corridor to improve the movement of traffic around Taringa and enable improved amenity and access through Taringa Village.
