

Brisbane Vision 2031

The vision for Brisbane in 2031

Brisbane will continue to be a safe, vibrant, green and prosperous city.

A city valued by all for its friendly, energetic and optimistic character and subtropical outdoor lifestyle. Brisbane will be respected for its strong international relationships, particularly with our Asian neighbours, for its boundless innovation and growing economic prosperity.

Our vision for Brisbane

Brisbane Vision 2031 is Brisbane City Council's long-term community plan for our city. It details the aspirations for our city's future and outlines targets for Brisbane in 2031.

This 2013 refresh of *Our Shared Vision: Living in Brisbane 2026* ensures our planning reflects the current needs and aspirations for our city and considers the significant changes that have occurred since 2006. Council sought community feedback and input on the *Draft Brisbane Vision 2031* during April and May 2013.

We all have a role to play

Responsibility for the achievement of *Brisbane Vision 2031* rests with everyone in Brisbane.

Council will continue to plan and deliver services and projects that help make Brisbane a great place to live and do business. However, there are challenges and goals that need effort and cooperation on more than just a local government level. Council will partner with various levels of government, other organisations and international partners to work towards the aspirations and targets in the vision.

Brisbane Vision 2031 also lists actions you, as a member of the Brisbane community, can take to help us achieve this vision for our city.

Some of the targets we will achieve together for Brisbane by 2031

- 40% of mainland Brisbane will be natural habitat.
- The average household's carbon emissions from energy, waste and transport will be six tonnes of CO₂e (carbon dioxide equivalent) per year.
- The majority of Queensland's creative industry workers will be based in Brisbane.
- The number of walking, cycling or public transport trips will increase compared to 2011.
- The majority of peak hour trips to the CBD will be by public and active transport.
- Participation in Council's 'Active and Healthy' activities will increase compared to 2013.
- Brisbane will accommodate 443,000 new jobs in efficient locations across the city.
- Each suburb will have housing options to enable choice in local areas and accommodate lifestyle changes.
- The majority of Brisbane's residents will rate our quality of life highly.
- The majority of Brisbane's residents will be positive about their city and its future.
- The majority of Brisbane's residents agree that Brisbane is friendly and welcoming to all.
- The majority of Brisbane's residents agree that they and their family feel safe when out and about in Brisbane.
