

Land designated for community infrastructure

1 Introduction

Chapter 3 of the Plan refers to land that has been designated for community infrastructure under Chapter 2, Part 6 of the *Integrated Planning Act 1997*. The following schedule includes details of designations required by the Act.

Note that designations are noted in the Plan as part of the regular review of the Plan. However a delay will occur between designation and adoption of the revised Plan.

Designations are also shown on the Planning Scheme Maps. The underlying Area may not always reflect the current use or the use proposed by the designation.

Details of the development that will result on the designated land can be obtained from the State Government business entity responsible for the particular designation.
